of Russian-Belarusian  
Information Center on the  
Problems of the Consequences  
of the Catastrophe  
at Chernobyl NPP**

Republican Scientific and Research  
Unitary Enterprise «Institute of Radiology»

# BB RBIC EXPERIENCE

Preservation, analysis, generalization and extension of the unique accumulated experience

Active positioning and demonstration of the government efforts in overcoming the consequences of the catastrophe

Creation of common information policy in the affected region within the framework of the Union State

Population involvement into the process of rehabilitation  
Preparation of a competent person in radiological issues

International exchange of experience and partnership for rehabilitation

Foundation of  
Belarusian department of  
Russian-Belarusian  
Information  
Center  
October 20, 2007

# SUBDIVISIONS BB RBIC

## BB RBIC

**Information  
analytical  
department**

**Publishing  
sector**

**International  
cooperation and  
coordination  
department**

### **Specialists in**

- radiobiology
- radiation medicine
- communication
- biology
- economists

### **Specialists in**

- international cooperation
- sociology
- psychology

### **Specialists in**

- publishing
- design
- editing

# ACTIVITY BB RBIC

## **Elaboration and guidance of projects and programs realization**

State and Russian-Belarusian Chernobyl programs, CORE projects, establishment of local information center in Bragin district

## **Holding topical information activities in Belarus and abroad**

exhibitions, seminars, press-tours, Internet-actions, films, distant consulting

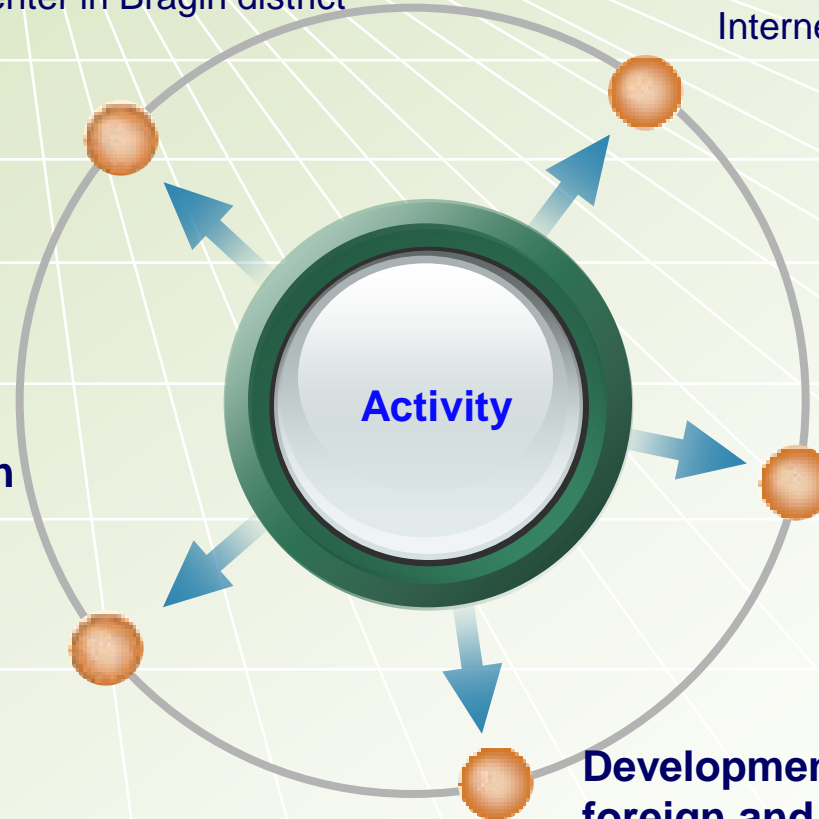

## **Elaboration and publication of topical information materials**

booklets, brochures, posters, disks, Internet-sites

## **Development of partnership with foreign and international organizations**

Experience exchange, preparation and implementation of collaborative development projects

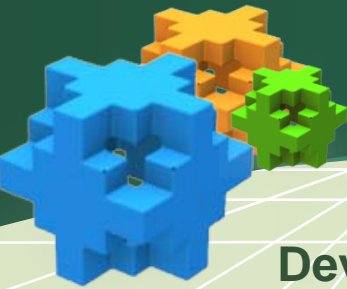

**Activity**

## **Analysis, generalization and use of experience in overcoming the consequences of the Chernobyl catastrophe**

creation of the data base, expertise of programs and projects, elaboration of concepts and strategies

# DIRECTIONS OF MUTUALLY BENEFICIAL COOPERATION

**Development of a network of educational information centers on radioecology and formation of practical radiological culture applying innovative methods of teaching and ecologically reasonable technologies in the most contaminated regions of the Republic of Belarus**

in the Republic of Belarus:

- ✓ Dissemination of scientific knowledge on the contaminated territories by working with youth
- ✓ wide use of the positive accumulated experience in the use of innovative techniques in national educational establishments

in Europe:

- ✓ experience exchange in fundamentally new forms of learning
- ✓ use of youth innovative teaching techniques in socially significant spheres

---

**Participation in networking of local units for the development of radiological culture among adult population in the contaminated areas of the Republic of Belarus**

in the Republic of Belarus :  
creation of the background for  
a long-term rehabilitation

in Europe: testing the model of work with  
population in conditions of probable  
radioactive contamination

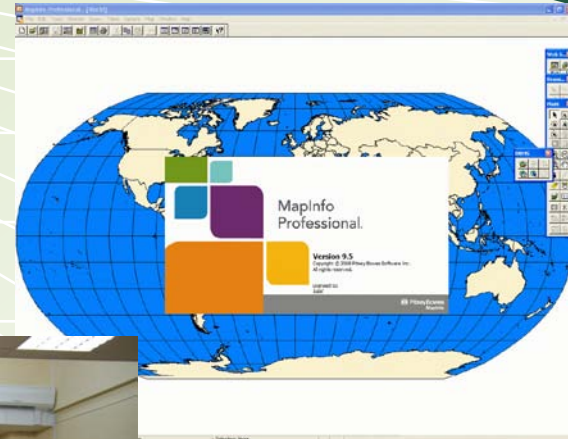

---

**Qualification improvement for foreign and Belarusian specialists in complex rehabilitation by means of professional exchanges, training tours**

Center building
