## Why EU research...

- Science
- Money
- Network

## Science

## EU Science

- Often in a European setting
- New, but on a European level
- Europe...The worlds largest laboratory

## Research or Project

- Work towards solutions of the problem
- Research in service of society
- No Science for the sake of Science

## Industry or Academia

- Is your work applicable ?
- Different interrests, different languages

# Money

It's not Christmass...

- Reasonable...
- Economic...
- Necessary...

## Accounting

- EU projects **cost** money !
- Stick to the plan !
- Keep your bookkeeper happy !

ПИТАНИЕ

Food quality & safety

InJoy&Train

## Networking

## Working together

- Networking is the most important in EU research
- The closest you have ever worked together... (except with your wife)

## Network etiquette

- Different countries, different customs
- Build trust, be a model partner
- One thing leads to another

## Take Action
